The Little White Donkey IBERT The Little White Donkey

WHAT DO YOU HEAR?

Have you ever seen a donkey? Donkeys are related to horses, mules, and zebras, and are used all over the world as working animals. Typically, they help people by carrying or pulling heavy loads, or even protecting smaller livestock, like sheep and goats, from predators such as coyotes. Donkeys are known for being stubborn and fearless, and for having a powerful kick! But like horses, they can also be very smart, friendly, and loyal animals.

This piece tells a musical story about a donkey. Let's make our own version of the tale! First, we need to gather some information so we can build our story.

Buddy points out four moments in the music that represent different things the donkey does, or show how he's feeling. Can you remember what they are?

1. _____
2. _____
3. _____
4. _____

The donkey is in a good mood throughout the piece. But in the middle, the donkey's mood changes. What do you think happened in the story to change his mood?

After a little while, the donkey calms down. What do you think happens to cheer him up again?

TIME TO DRAW!

Now, use your imagination to draw the little white donkey in your story! Make sure to write a caption telling which scene the picture shows.
